

UK23

Hybrid plug-in electric crawler

Rig weight	13 T
Push capacity	13 T
Max. travelling speed	3.4 km/h
Track material	Composite
Track length	4.15 m
Track width	0.70 m
Jack arrangements	3nr. (1nr. under engine, 2nr. under access door)
Noise output at 2 m	Testing – 64.5 dBA Tracking – 73.9 dBA
Clamp arrangement	Hydraulic push-pull clamp
Ram stroke	1.22 m
Max. casing size	55 mm
Fuel type	Biodegradable diesel
Typical production	100m+ of standard CPTu testing per day (depending on site conditions and access)

Can operate on the diesel engine or completely on plug-in electric. Requires a 3-phase power source to run on electric.

The rig is driven externally with a wireless remote-control device allowing the operator to have clear views for access and manoeuvring.

Ideal for sites with limited access or working internally. Composite tracks and chapter 8 signage for working on highways.
